PHELAN, CURTIN AND SNYDER ASSURED OF VICTORY.

ENCOURAGING REPORTS COMING IN FROM EVERY COUNTY IN THE STATE

ON THE EVE OF BATTLE ALL INDICATIONS POINT TO ELECTION OF LATIMER AND TORMEY FOR JUDGSHIP, HORNER FOR ASSEMBLY, SOTO FOR DISTRICT ATTORNEY AND E. E. GROW FOR COUNTY SURVEYOR.

The Phelan headquarters has issued the following statement: "Reports from every county in the state make it certain that the voters of California will express their approval of the administration of Woodrow Wilson by sending James D. Phelan to the United States Senate. Phelan will win by a safe plurality over Knowland and Heney will be a bad third. Although Knowland is favorite in the betting very few wagers are being made, the odds being due solely to the large Republican registration and having no basis in knowledge of the true political conditions. "Heney is no longer regarded as a factor. Bets of three to one that Phelan beats him are offered with no takers."

The Macdonough Theatre was crowded to its utmost capacity Saturday night when more than 2,000 assembled could be seen the faces of Interior Franklin K. Lane in the final speech of his campaign tour in support of James D. Phelan, candidate for the United States Senate and Jo V. Snyder, candidate for Lieutenant-Governor of California. The profound interest taken in the

issues of the campaign demonstrated conclusively that the Democracy of the state is taking an exceptionally keen interest in the affairs of California, and it is now generally conceded that Senator Curtin and Jo V. Snyder will be the choice of the vast majority in the silent battle of the ballots tomorrow.

CAMPAIGN WORK COMPLETED-- SOTO IS CONFIDENT OF SUCCESS

The last week with A. J. Soto, candidate for District Attorney, has been one of getting ready for the election tomorrow, and today finds that he has made a complete round of the county during the last seven days, and is spending today in Richmond. His campaign has been a clean one from beginning to end and friends by the hundreds have rallied to his standard, and will be out in the different precincts tomorrow helping him to make his fight.

Mr. Soto is the best equipped man for the place that is in the field. For many years he was auditor of this county, and as a result is conversant with every detail of county government and the laws concerning it. For the past eight years he has been assistant district attorney, and has been a practicing attorney for the last eighteen years.

As District Attorney and the advisor of the board of supervisors he will be peculiarly fitted to interpret the law for them.

His record is a clean one, and there is not a word that can be said against him. Make it your business tomorrow to see that you and your friends cast your vote for Mr. Soto. By close students of affairs in the county it is generally conceded that he will be elected tomorrow, but help to swell his majority as much as possible.

CONSTRUCTION OF TANKS AND STILL FOR STANDARD OIL IS WELL UNDER WAY AT MARTINEZ; ENGLAND CONTRACTS FOR AN ENORMOUS SUPPLY OF OIL.

The preliminary preparations for the erection of cottages, stills and tanks for the Dutch Shell company upon that corporation's refinery site has been going on at Martinez for some days past. Thousands of tons of rock and sand have been deposited upon the ground and within the next few days over a hundred tons of concrete will have arrived upon the scene, and will be used in construction work. Within a few weeks work will be commenced upon a road which will be built around the hills through the refinery property to aid the work of construction with greater facility.

Mrs. Calvin McCullough lies at her home at 233 Thirteenth street in a precarious condition as the result of a Halloween prank played upon her by several small boys, in that she was tripped by a wire stretched across the sidewalk on Nevin avenue last evening while on her way to the Calvary Baptist church.

Mrs. McCullough who was accompanied by her husband was rushed to her home where Dr. W. R. Scroggs was summoned.

Mr. and Mrs. McCullough were on their way to church, and as they approached the corner of Tenth street the shadow from the arc light concealed the wire which had been stretched about eight inches

In June, 1914, the Richmond Daily News advised District Attorney A. B. McKenzie to give up his office and resign as he had prostituted it to the purpose of the corporations, that he had no right to turn over the duties of the office of District Attorney to the hired attorneys of corporation. Mr. McKenzie was condemned for his unfair attitude to labor in the Mooney trial.

Now just a few months later, the same paper on November 1st comes out and advises the voters to cast their ballots for the man they had condemned a short time before. The question naturally arises, what has brought the change of heart? Was the News advising its readers sincerely in June or is it advising them truthfully at the present time?

Here are the two articles; read them and draw your own conclusions:

ADVISES YOU TO VOTE FOR HIM (Richmond Daily News, Nov. 1, 1914.)

"A. B. McKenzie should be elected Superior Judge. As district attorney he has stood by the people and jealously guarded their interests. He has been fair to all classes and has the confidence of both the employer and the worker."

"McKenzie is a man of large family. He has nine children and every one of them is a native son or daughter of Contra Costa county. He is a devoted husband and parent."

"He has made a good, clean, square campaign and all indications are that he will be elected Superior Judge next Tuesday."

ADVISES HIM TO RESIGN (Richmond Daily News, June 16th, 1914.)

"Yesterday District Attorney McKenzie forced the case (Mooney) to trial for the third time, and M. R. Jones again appeared as active counsel and the eminent John Barrett sat inside the railing, presumably in an advisory capacity. Both Mr. Jones and Mr. Barrett are gentlemen and lawyers but they are corporation lawyers and are paid by corporations, so what business have they as public prosecutors in the Mooney trial or any other trial? It is not Tom Mooney on trial."

(Continued on Page 3)

LATIMER AND TORMEY ARE ASSURED OF WINNING

Under the law the people of Contra Costa are called on tomorrow to elect two judges of the superior court. There are four in the field and there must be a choice made among them.

All indications point to the fact that after the votes are counted that the successful ones will be R. H. Latimer and Leo F. Tormey. Both of these men are eminently qualified for the positions they seek.

Hon. R. H. Latimer has been the judge of the superior court for the past six years, and has made a record of which any one can be proud. There is nothing that can be said against him, and pages might be written of good things concerning him. At the primary he polled almost eighty per cent of the entire vote of the county, and the people tomorrow will increase that vote very materially.

Judge Latimer for years resided at Walnut Creek, and he has watched and helped the county in its growth from a mere babe till it has reached the proportions of a giant.

Afterwards he moved to Martinez, where he took up the practice of law and followed his profession for years when the people decided he was entitled to honors, and in 1908 elected him as their judge by an immense majority although the county is strongly Republican.

Leo F. Tormey who aspires to the second seat on the bench is a native son of Contra Costa, having been born at Rodeo, although for the past twelve years he has practiced law at Martinez, where he has built up a lucrative business. At the primary he was next to the high man on the ticket, although he only announced his candidacy but two weeks before the election. Since the primary he has made a very active canvass, and friends who have gathered to his support insure his election.

He is a clean, honorable gentleman and when elected will dispense justice with a fair and impartial mind.

Tomorrow when you go to vote be sure and place a cross after the names of R. H. Latimer and Leo F. Tormey for Superior Judges.

VOTE FOR

LEO F.

TORMEY

--FOR--

Superior Judge

He is a good, clean man and deserves the hearty support of the Electors of Contra Costa County.

BE SURE AND GET TO POLLS EARLY

On account of the extreme length of the ballot to be voted tomorrow it behooves all who are anxious to participate in the election to get to the polls early in the day as those who procrastinate are quite likely to be crowded out. It is estimated that it will take at the very least ten minutes for voters to mark their ballots and since there are over 400 voters in some of the local precincts it is quite likely that when the hour for closing the polls arrives there will be many who will be too late to get into line at the hour of 7 in the evening. The election law, Section 1144 reads as follows:

"When the polls are closed, the fact must be proclaimed aloud at the place of election; and after such proclamation, no ballot must be received."

"PROVIDED, HOWEVER, that if at the hour of closing there are any others in the polling places, or in line at the door, who are qualified to vote and have not been able to do so since appearing, the polls shall be kept open a sufficient time to enable them to vote. But no one who shall arrive at the polling place after seven o'clock in the afternoon shall be entitled to vote, although the polls may be open when he arrives." (Amended, Statutes of 1913, p. 219.)

To Observations Which Ourselves We Make, We Grow More Partial, for the Observer's Sake.

WINTER IN THE TRENCHES

The coming winter will have a quieting effect upon the war in one part and cause activity in other parts. It may bring operations in France and Belgium practically to a standstill, lock the Zeppelins in their shelters, suspend in large measure the flights of aeroplanes and cause the postponement until spring of all German plans for the invasion of England, if such plans are seriously entertained.

But in Prussia and Russia Poland the winter may have quite the other effect. It may quicken the fighting into greater activity. The Russians will try to make the best use of their advantages as a winter-hardened race. They will try to cross the frozen marshes and lakes of eastern Prussia, bring up their rear guard and reserves and put their communications upon the best possible plane before spring warms the frost out of the ground and renders the country impassable to troops. Every step will, of course, be disrupted by the Germans and where now attention is mostly directed upon the soldiers in France, it will be shifted in a few weeks to Russia and eastern Prussia.

Conditions among the troops in the trenches on the west will be far from pleasant, but they will seem like a summer picnic by comparison with the hardships which the struggling troops will be called upon to endure in the eastern theatre of war. We will hear terrible tales of suffering, tales upon the order of those that the broken soldier of Napoleon brought home in their flight from Russia.

COLONEL ROOSEVELT NORMAL AGAIN

Colonel Roosevelt is never in a normal condition unless he is neck deep into a political fight and calling everybody in sight a liar and having them retort in the same strain. So he must feel quite natural now, in the New York state campaign, which is waging hot and heavy. It will seem like good old times again to the Colonel.

While he was in South America and for months after his return the reactionary press actually said nice things about him. It rebuked a traveling American who brought home from Brazil a silly and impossible story about him. This had a queer sound, like a bellowing bull trying to sing a song of beautiful spring. But this unnatural benevolence couldn't last. The reactionary press of New York, city and state, is acting normal again. It is calling the Colonel a horse thief quite as loudly and vindictively as for years it has been used to calling him. It has opened up its war chest of words that burn and sizzle and foam at the mouth, and is plastering Mr. Roosevelt with them as fast as the presses can be run. And nobody likes this better than the Colonel. He wouldn't feel at home under any other circumstances.

This reminds us of the story of a dorky who got stranded in the north. He walked his weary way through the stranger's country, begging food and shelter as he went. One evening he asked a meal of a man who was sitting on his front porch. "What do you mean, coming up here, you black rascal?" shouted the householder. "I've a notion to cut your heart out! Go round to the back door, sir, as you ought to!" "Bless the Lord!" cried the wanderer, "I've with me my own folks again!"

As the Colonel turns to the editorial pages of his ancient enemies he much exclaims: "They're just as sacred as ever! My! It is good to be home and into the fray again!"

There is every reason to believe that Clare D. Horner will be elected to the Assembly tomorrow. He is a clean young attorney and is much better qualified to fill the office than his opponent. See that you stamp a cross on the ballot opposite his name.

The importation of the thousand of Belgians to California who have been rendered homeless by the European war sounds very good from a philanthropic viewpoint, but what about the thousands of homeless Americans. Would it not be well to exercise a little of the charity at home first?

"CERTAIN JUSTICE"

Nothing that the President had to say of commercial and political conditions in his recent optimistic speech has been received with more surprise and sneers than his reference to the possibilities of "certain justice to the man engaged in business."

The certainty of injustice in this country has been so great for many years that many of those who have profited by it seem to regard even a hope of better things as fantastic. To have a President of the United States speaking as though he really believed in just laws, and had faith that they would be of service to the people morally and materially, is to such persons proof of scholastic inexperience and sentimentalism.

Yet it is not very long ago that the American people, in the quaint preambles with which they were in the habit of introducing their state constitutions, held up similar ideals for the approval of mankind. To make sure that they would be understood they repeated themselves. They spoke of certain and exact justice, of justice that was to be had without postponement and without delay, and of justice that was to be dispensed without money and without price.

Human agencies are subject to many imitations, but unless they adhere to high standards their tendency is unfailingly downward. President Wilson's vision of certain justice is not a delusion. Some day it will come true. To make even an approach to it in his time will confer undying honor upon him.

One of the greatest assets of American business men at this moment, if they only knew it, is the steadfast confidence of their chief magistrate in the right. It has its roots in wisdom and good conscience.

In comparison with an assurance so lofty, how mean are the vexations and impatiences of those who imagine that nation-wide reform is to be stayed or defeated by ridicule or by threats; how paltry the political hopes that hang upon calamity contrived rather than upon justice that is certain!—New York World.

The unkindest cut of all is Culebra, at Panama. It is a regular backslider.

We don't fancy we would care to be a real estate man in Belgium just now.

Things are getting some better in Mexico. A fellow can resign before he gets assassinated.

A shower sounds nice pattering on a shingled roof, but the beating of a storm on a tin roof is not so musical.

There are so many women syndicating their matrimonial views for publication that it is little wonder the men are shying off.

The high cost of living confronts this country and the high cost of killing worries the countries across the sea.

We just feel it in our bones that the dominant party down in the infernal regions is the Republican party.

Pause and consider the amount of the war tax if President Wilson had allowed himself to be stamped into Mexican intervention.

The citizen of the United States who protests against doing his small share to uphold the financial credit of the United States in the present world crisis doesn't deserve to be a citizen of the United States. It appears that a number of such hold seats in the United States Congress.

With President Wilson at the head of this nation and Secretary Bryan at his right hand, there is little danger that we shall become involved in the great war. Things are bound to happen as hostilities proceed which will inflame the jingo spirit in this country, and those who mistake wise patience and love of peace for cowardice will scream for revenge for some real or fancied grievance. But the men who guide our national destinies have shown by their admirable conduct of our Mexican relations that they are not to be influenced by the outcries of the unthinking and the existable.

"SAFETY FIRST" IS SLOGAN FOR TEACHERS TO ADOPT

STATE SUPERINTENDENT OF PUBLIC INSTRUCTION ADDRESSES CIRCULAR TO TEACHERS OF STATE CALLING ATTENTION TO DANGERS THAT BESET LITTLE FOLKS ON ALL HANDS, AND WARNING THEM TO STOP, LOOK AND LISTEN.

In a circular entitled "Safety First," Superintendent of Public Instruction Edward Hyatt, has addressed the teachers of the state in which he suggests the idea of instilling the Safety First idea into the minds of the children as a means of preserving the life and strength of the state. This circular is the tenth of a series of bulletins on the conservation of health authorized by the Legislature of 1913, and appeals as much to the parents as to the teachers in the schools. It reads as follows:

"To the Teachers of California: The school terms are now opening all over our state. It may be worth while, at this time, to remind all of the people who have to do with the training of the next generation that the slogan Safety First stands for something that has a place in our work. It particularly concerns the welfare of that next generation.

A few years ago no special caution was necessary for people to take care of themselves. It was only necessary to come in when it rained, to look out for Indians or wild beasts behind the bushes, and other things like that. Now there are a thousand perils in every direction. We have so many machines, so many swift moving vehicles, such high speeds, such new and unknown devices everywhere, surrounded by such multitudes of people, that some special instruction is necessary to the safety of the people. Children need to be cautioned and taught regarding these new sources of danger. Their minds need to be adjusted to the new conditions.

Our whole state is reticulated by electric wires. Telegraph, telephone, power, light, and third rail lines run everywhere, even in the

are dangerous to the ignorant and the incautious. A broken wire may carry death to him who touches it; it may fall in a pool of water and bring destruction to those who step in the water; it may fall on a barbed wire fence and kill the one who climbs over a fence a mile away. An innocent telephone wire may be charged with a deadly high power voltage. The third rail is always a menace. Accidents happen when the children throw wires over the telegraph line or climb the poles for fun.

The regular railway lines, with heavy trains thundering along at high speed every hour of the day and night, are also very dangerous to the life and limb of the incautious and the adventurous. School houses are sometimes near the track, and children often have the habit of making a playground of the right of way, climbing under and upon the cars. Boys often jump on the slowly moving trains to go part way home, or hang to the cars for a joy ride. Particularly is this true in the villages and small towns. All this, the country over, results in a fearful cost in suffering, crippling, and death.

The great railroads have prepared statistics showing the number of preventable accidents in this way, and the figures are appalling. During the past twenty years 181,378 remote rural regions, and all 379 trespassers were killed or injured on the railroads of this country. None of these were train men or persons who were there by necessity, but trespassers. Twenty-five thousand of them were young people under 18 years of age, living near the scene of the accident, and many of them were under 10 years of age. One hundred twenty thousand

and one hundred and three of them were citizens of the localities where the accidents occurred. Fourteen trespassers have been killed or injured by the railroads every day on an average for several years past. Think what an army of children it would take to make 25,000! They would reach around the world if one stood by every milepost! And all would have been saved had they kept off the railroad tracks. Our carelessness and heedlessness in this regard are inconceivable. Experienced railway men and trainmen never cross the tracks on foot or horseback, with rig or auto, in town or country side, without first looking up and down the track for a train. Should not others still more take this precaution? The great railroads of the country spend millions of dollars yearly to prevent accidents, to save life and limb. Is it not a public duty to do our small part, too?

When we add to these sources of accident a hundred thousand automobiles swift careering along every road in our state, far and near, together with motorcycles, traction engines, flying machines and other swiftly advancing forms of locomotion, the wonder is that any of our children escape long enough to grow up. They can hope to escape only by riding on the shoulders of their elders and by profiting by the wisdom and caution that come down from the past. Somehow, they must grasp in a few days the caution that has required a thousand years or more for the race to learn—if they would survive.

I hope every teacher will take up these subjects for attention and discussion in the school room, in an effort to instill the safety spirit into the minds of the children. If we can overcome some of the dangerous practices it will result in saving human life. It is well for the schools to join in the Safety First movement for it is by such steps as this, all together, that the human race advances along the corridors of time. Some A. B. C's. For Everyone to Know.

Wait till the train or car stops before getting on or off. Horrible accidents happen continually because people neglect this in their foolish haste.

Get off a train or car facing forward, and look out for automobiles while leaving the car. A large part of the street accidents occur by forgetting this common sense rule.

Never play about railroad lines, nor loiter about on the tracks nor walk over the trestles or bridges. An astonishing number of people are killed every month by neglecting this caution.

When approaching a crossing, stop, look, listen—always look both ways. Hundreds of families are needlessly slaughtered because the driver will not observe this safeguard. Not only the silly driver suffers, but the

innocent people who have trusted him.

Shun dangling wires and never meddle with electric lines at all. Curiosity and heedlessness lead many children to their death.

Do not hitch on behind a street car or wagons. A swift driver approaching in front can not see the boy hanging on the rear, and frequently runs over him when he lets go.

Never take chances—always be safe, even if you do lose time and do lose speed. The foolish desire for speed kills its tens of thousands.

Always refuse to ride with a driver who is intoxicated or who for any other reason does not obey the rules of the road. Otherwise, you trust your life to the hands of a fool.

Vote for C. D. Horner for Assemblyman. He is the right man for the position.

GOOD telephone service depends vitally upon care in calling telephone numbers. A wrong number called causes loss of time to you, to the party called and to the operator. Every instance means inconvenience to all concerned which is wholly avoidable.

It is not the loss of time to you alone or to the operator that concerns us most, but it is the annoyance to the party called. Your mistake cannot be explained to him, and the Telephone Company is held responsible for your error.

Consulting the current issue of the telephone directory, instead of trusting to memory; giving your number clearly, and quickly correcting the operator if she misunderstands your call, will greatly increase the efficiency of the service.

CONTRACTORS DENY ACCOUNT OF CARILLO'S RETIREMENT

SHATTUCK-EDDINGER COMPANY DECLARE REPORT OF REMOVAL OF SUPERINTENDENT ON TUNNEL IS AN IDLE CANARD WITHOUT FOUNDATION.

"Superintendent E. J. Carrillo is still in charge of all work on the municipal tunnel and will be for some time to come," was the statement made by Contractor H. Shattuck of the firm of Shattuck-Eddinger company to the Record-Herald today in regard to an article published in a contemporary.

"The story appearing in the local paper that Superintendent Carrillo had been discharged for incompetency is one of those misrepresentations that are without foundation. For, in fact I consider Carrillo one of the best superintendents now in my employ," was the frank manner in which Contractor Shattuck expressed himself.

Contractor Shattuck further stated that Superintendent Carrillo had been called south for a few days to attend to some legal business and that since his departure the services of Jock Welsh who superintended the boring of the Oakland-Antioch electric tunnel near Walnut Creek had been secured.

"While it is true that we have experienced some minor slides since the work was commenced, they were of no more consequence than is frequent in such work of such a nature, and are naturally to be expected, but in no sense of the word can the responsibility for these mishaps be laid upon the shoulders of Carrillo who has worked faithfully and conscientiously to push the bore through, and in justice to him will say that he is a very competent man and I regret very much that such an erroneous report should have been circulated.

"Welch, is also a very competent man, having had charge of our work while tunneling for the Oakland, Antioch and with these two men in charge everything should progress neatly upon the undertaking, as both have worked together before and are on most friendly terms."

TRAIN SMASHUP MAY CAUSE SOME RIGID INQUIRY

Wreck of Stockton Local At Knightsen on Saturday Evening at Which Time it Crashed Into Three Freight Cars Is a Mystery to Officials.

A wrecking crew from the local Santa Fe yards have been dispatched to Knightsen, where they will gather up the debris made by the wreck of Stockton local No. 41 on Saturday evening in which Conductor Jack Mullet and Engineer Albert Carter of this city were badly injured by flying glass.

Although nearly all of the passengers, riding in the forward coaches were thrown into the aisle, none were seriously injured, which is considered miraculous by railroad men in that the passenger train crashed into a freight train, demolishing three box cars.

Section Foreman J. R. Rogers, with a crew of five Mexicans, who had been working on the spur track prior to the accident, reported that they had locked the switch.

An open switch, that through the carelessness of some train crew that passed that way several hours before was the cause of the wreck of Santa Fe passenger train No. 41, was at 9:25, at Knightsen at 9:35 o'clock Saturday morning.

HORNER WILL BE NEXT ASSEMBLYMAN

With the self-satisfaction that attends a task well accomplished, Attorney Clare D. Horner is content to await the decision of the voters of this assembly district at tomorrow's election. Attorney Horner, has no fears for the morning and declares that he feels that he has done his duty, but like all of the other politicians of the county and state is glad that the long and arduous campaign is drawing to a close, and that he is willing to await the result of the election.

During the campaign he has made a clean, thorough canvass of the entire assembly district which he aspires to represent at the state legislature, not for the honor of the of-

fice but for the great mission that he feels he has to perform. In his travels throughout the district he has been assured of hearty support in the upper end of the county and promises that if elected he will serve the people to the best of his ability and favor only such legislation as will be of the greatest benefit to the greatest number. His popularity in Richmond and his many sterling qualities, together with his unquestioned executive ability assure him a generous plurality after the votes of tomorrow are all counted and in the event that the fortunes of the fight should go to another, he can truthfully say "vox populi, vox Dei."

ROBERT WARWICK IN "THE MAN OF THE HOUR"

"MAN OF THE HOUR" IS THRILLER AT RICHMOND

One of the new feature plays which is shown at the Richmond theatre today, "The Man of the Hour" in which Robert Warwick is starring.

The play is one of gripping interest from start to finish and holds

the spectators spellbound, with Warwick in the leading role.

Perhaps the only other play that can in any way be compared to the "Man of the Hour" is the "Master Mind" recently shown at the Richmond theatre.

RESIDENTS OF IMPERIAL URGE SUPPORT OF NO 30

The residents and property owners of the Imperial Valley are exercised over the result of the election tomorrow and the effect that the carrying of Amendment No. 30 would have upon that particular district and as a result thousands of circulars have been distributed broadcast through the state urging the voters to support Amendment No. 30. The letter reads:

"Vote 'Yes' on Amendment No. 30. This amendment affects only Imperial Valley and Imperial county. The canal system which supplies water for irrigation, by reason of the configuration of the country, has its heading or source of supply in the Colorado river in the state of California. It then runs for forty miles through Mexico and back into the United States where in Imperial Valley it supplies water for several thousand acres of splendid land. As neither an American corporation or individual can, under the laws of Mexico, own land or a canal in that country, in order to control this essential part of this irrigation sys-

tem for the purpose of the Imperial Irrigation district it is necessary that this Mexican canal be owned by a Mexican corporation. In order that the integrity of the canal system be maintained for the benefit of these thousands of acres of land and for land holders in Imperial valley it is necessary for the Imperial Valley district be permitted by our laws to own stock in the Mexican corporation holding Mexican property. This is now prohibited by our laws and this amendment will rectify conditions for adopting and permitting Imperial Valley to control its water system in spite of the international complications involved.

Other communities are neither interested or affected. The question is entirely non-partisan. Vote Yes for Amendment No. 30 and thereby render assistance to the people of the Imperial Valley. This amendment is generally endorsed by chambers of commerce and development boards throughout the state.

The engine was turned completely over, the baggage car was thrown onto its side and the smoking car left the rails and was partially telescoped.

A number of passengers in the smoker were badly bruised and shaken up but none were seriously injured. The switch connecting the "hot" track with the main line at the Knightsen depot was left open and the fast passenger train rushing through on schedule crashed into the open switch. The engine was a complete wreck and the line was closed for several hours.

PRETTY CITY GIRL CLAIMED BY LOCAL MAN

Clyde Ribley, Residing at 423 C Street, and Miss Ruby Mitchell Leave on Honeymoon Trip East.

Miss Ruby C. Mitchell of 466 Utah street, San Francisco, was claimed as the bride of Clyde Ribley, a popular Santa Fe machinist, on Saturday evening, at a simple marriage ceremony held at the bride's home.

Amid a shower of rice the newlyweds were ushered into a waiting taxicab and rushed to the ferry where they boarded a Santa Fe boat for this city and transferring to an eastern train.

The couple will spend their honeymoon in visiting relatives and friends throughout the east, returning the latter part of November to make their home in this city.

POLICE STATION IS NOW FULLY EQUIPPED

The interior of the city jail has been practically remodeled. All of the cells now glisten forth in a new coat of gray paint with white ceilings while new white iron cots now adorn each compartment so that a sentence from now on will be more of a vacation than servitude.

To new cots have been installed in the cells at the Fifth street fire hall, where a sub-station is to be made by Chief of Police Walker with the arrival of the new patrol wagon.

50,000 PLURALITY IS CLAIMED FOR CURTIN

SAN FRANCISCO, November 2.—The election of Senator John Barry Curtin by a plurality of 50,000 votes is claimed today by H. H. McPike, chairman of the campaign committee of the Democratic State Central Committee.

McPike's conclusions are given in the following statement issued from Senator Curtin's headquarters: "John Barry Curtin, Democratic nominee for governor, will be elected by a plurality of 50,000 votes."

"As chairman of the Democratic Campaign Committee I have kept careful tab of the changes of voters from one party to another during the whole campaign, and I am able from these records to give absolutely correct calculations as to the votes that will be received by the three leading candidates on November 3rd.

"Taking the final registration as a basis I start with 510,000 registered Republicans, 277,000 registered Democrats and only 217,000 registered Progressives.

"In all elections in this state each party polls an average of 65 per cent of its registration, and on this basis the Republicans would cast 331,500 votes, the Democrats 180,000 votes, and the Progressives only 142,000 votes.

"The reports at my headquarters indicate that John Barry Curtin will get 20 per cent of the Republican votes cast, and the Progressive candidate 199,000 and give John Barry Curtin, the Democratic candidate 240,000 and the Progressive candidate 202,000.

"Giving the Republican candidate 5 per cent of the Progressive votes and 5 per cent of the Democratic votes cast, and the Progressives 10 per cent of the Democratic votes and the Democrat 10 per cent of the Progressive votes, the figures stand: Democratic candidate, 231,000; Republican, 215,000; Progressive, 195,000.

"In this I may be giving the Progressive too many Democratic votes for the reason that in the last few days of the campaign the people have learned that the railroad com-

The tautness of the wire caused Mrs. McCullough to fall bodily to the cement pavement where she was picked up in an unconscious condition by her husband and taken to her home.

Although no new symptoms have developed in the woman's case there is a probability that she may have sustained internal injuries.

The police have been notified and are on the lookout for the boys who perpetrated the act.

pany is behind the Progressive candidate.

"Estimating that 65 per cent of the 117,000 who have given no designation will cast 50 per cent of their votes for John Barry Curtin and 25 per cent each for the other two candidates, the vote then will stand: Curtin, 269,000; Fredericks, 226,400; Progressive, 221,600.

"Curtin will get 10,000 Socialist votes, which will raise his figure to 279,000 and the Progressives will get 10,000 Prohibition votes, which will raise his final vote to 231,000, and leave the Progressive 27,400 behind the Democrat, and the Republican 52,600 behind the Democrat in the final calculation."

FUGITIVES ARE TAKEN IN RUNNING DUEL TODAY

TWO ITALIANS WHO KILLED G. SOLMANI IN A FISHING BOAT FEUD AT PITTSBURG IN SEPTEMBER ARRESTED BY CONSTABLE PALMER.

Natalie Tezzementi and Giuseppe De Martino, the two Italians who on the night of September 28th, shot and killed G. Solmani in a fishing boat off of Pittsburg, were captured at a late hour today by Constable Palmer of Martinez as they were about to board an electric train at Bay Point for San Francisco.

Since the night of the shooting the two men have been fugitives from justice and so well have they been shielded by their countrymen that their pursuit has proved baffling to the authorities.

"Since the night of the feud in which Solmani lost his life the two men have been roaming among the tule sloughs above Antioch.

Constable Palmer on seeing the two men today at Bay Point ordered them to stop and instead they broke into a run and he was forced to fire several shots at them.

They were taken to Martinez where a charge of assault with intent to kill was placed against them.

CONFISCATION WITHOUT COMPENSATION

ELKS STAMPEDE OAKS AND CRUSH THEM INTO DEFEAT BY 5 TO 2 SCORE

CONGER STAR PERFORMER OF GAME, INGRAM, CUNNINGHAM AND CLEEK MAY TRY OUT WITH OAKS. ABLES BATTED FREELY BY ELKES.

Able were we that we met Ables. And incidentally in meeting Ables of the Oaks we managed to garner the longitudinal part of a 5 to 2 score.

One thousand people witnessed the coming back of Charlie Burns; one thousand frenzied fans saw Conger, a recent addition to the locals from the Three I league pull off two almost impossible chances at the third sack, one thousand Richmond rooters saw "Ping" Bodie and "Cutey" Cunningham romp home on a single rapped out by "Swat" Ingraham; same thousand saw "Brick" Devereaux, clad in blue koverall outfit race back and forth along the third base coaching line as he sent the Elkes around the bags, and last but not least, these same thousand fans saw "Cornelius Maggillcuddy" Luce, the Connie Mack of the Richmond team, and formerly manager and high chief executioner of the Tombstone League in Arizona, leap high into the air at the end of the ninth frame and gurgle forth a toast to Ingram, Zamlock, Childs and Conger, his priceless infield who, man-

aged to ring the gong on Tyler Christian's Oaks.

Conger a "Wiz."

Too much cannot be said in regard to the playing of Conger, recently with Indians, Illinois and Iowa league of the Middle West who as a third baseman is a wonder. In Conger is combined the speed of Roy Corban, the champion short stop of the Oaks, the sureness of Captain Bill Rodgers of the Portland Ducks, the easy going of Jerry Downs of the Seals, the headiness of Venice Brashear and the youthfulness of Hallinan, the Wolves' star infielder.

Coupled with Conger's crack playing was the agility of the triple alliance composed of "Midget" Childs, Carl Zamlock and Kenneth Ingram. Although this quartette failed to figure in any fast double plays, they managed to gobble up everything that came their way.

Christian on Watch.

During the entire nine innings of the game Tyler Christian, chief interpreter for the Oaks, kept his eagle eye trained on three men, they being Clifford Cleek, Kenneth Ingram and William Cunningham.

Although Cleek played an excellent game and worked like a Trojan, he seemed to be a little nervous when up against "Jumbo" Ables whose instructions were to use his best and fastest balls on these three men.

From meertain rumors, which spread after the game yesterday it is probable that Cleek, Cunningham and Ingram will be given a tryout with the Oaks during the spring training season.

Ingram, in the eyes of one thousand fans present yesterday, handled himself far better than did "Rube" Gardner, although the "Rube" made several grandstand catches, he failed to carry that air of confidence when butting up to a fast grass cutter which "Swat" possesses.

The Asiatic Petroleum company, the marketing end of the Shell-Royal Dutch syndicate has secured a contract from the British government to furnish an enormous but unspecified quantity of gasoline and petroleum products for the British army and navy.

It was stated that in view of the fact that the company's production from its European wells, that is those located in Galicia, Roumania, and Russia has either ceased entirely or had been seriously curtailed, any big contract with England ought to help the California Petroleum situation. ST. MARKS CHURCH FAIR ENDS THIS EVENING

This evening will mark the closing of the successful fair which has been conducted at 1004 Macdonald avenue by the ladies of St. Mark's Catholic church. It is intended by those in charge to make the closing night one of the most enjoyable of the entire fair and the chief feature of the evening will be the drawing of the prizes for which tickets are now out, hence it behooves all ticket holders to have them handy for reference.

The awards will be a Wilton rug, genuine Spanish leather davenport, five-light electric chandelier, city lot valued at \$500, two oak rockers, saddle horse, silver set and a fancy French vest.

The remainder of the evening will be followed by dancing at which excellent music will be provided.

REPUBLICANS TO SUPPORT JO. V. SNYDER

Many Republican newspapers in the state are taking the position that since the Republican party has no nominees for some of the state offices, and particularly for Lieutenant Governor, voters of that political faith should cast their ballots for the Democrat, for in so doing they are not helping to build up a third party in California. The Los Angeles Times, one of the greatest newspapers in the west, always a victorious confederator for the success of the Republican party in state and nation, advises Republicans to vote for Jo V. Snyder, the Democratic nominee for Lieutenant Governor, and puts the situation this way:

"Republicans of California will do well to vote for Snyder for Lieutenant Governor. For, owing to the trickery of Eshleman, there is no Republican candidate for that office, and an honest Democrat is far preferable to a tricky, time-serving Janus-faced Progressive."

"Elsewhere than in California, even from Massachusetts to Missouri, the candidates of the Progressive party have been defeated at every primary and general election, their committees have adjourned sine die, and the party generally can no more hope for resurrection than a salted mackerel could hope to again move his fins in ocean waves."

"With Governor Johnson and his plunderbund out of office and out of power, California, like a giant refreshed with the wine of progress, will stride forward to her rightful foremost place among the greatest of American states. With Johnson and Eshleman and the rest of the rapacious 'new gang' in office, she will inevitably flump and be distanced in the race."

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts is Back hurts or Bladder bothers—Meat forms uric acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active. —adv.

DR. FRASER TALKS AGAINST DRUGLESS PRACTICE ACT.

Dr. W. W. Fraser of this city delivered an address last evening in the First Christian Church of South Berkeley before a large audience. His theme was Amendment No. 46, commonly known as the "Drugless Practice Act." The doctor made a very strong and convincing argument against the initiative which would if carried at the polls tomorrow, permit masseurs, trainers of prize fighters and all who have spent six months in business of a like nature to receive the title of "Doctor" which would result disastrously to the unsophisticated public who may require the services of a skilled physician.

THE REGENERATION OF CHURCH AND WORLD

Life Everlasting Obtainable Only In Christ.

Why Regeneration Is Necessary—Why It Began at the First Advent and Not Sooner—Why Different Kind of Regeneration During the Millennium. How and Why the Church Is Regenerated by One Father and the World to Be Regenerated by Another.

PASTOR RUSSELL

New York City, November 1.—Pastor Russell, at the New York City Temple, took for his subject, "The Regeneration of the Church and of the World." His text was, "Marvel not that I said unto thee, Ye must be born again."—John 3:7.

The speaker demonstrated from Scripture that regeneration, second birth, is absolutely necessary if we would attain everlasting life. Adam's death sentence hindered him from giving his children the perfection of life in which he was created. For six thousand years his posterity have entered the world under a death sentence. The forfeited life cannot be prolonged; the Supreme Judge of the Universe cannot set aside His decision. But God could provide for the regeneration of Adam and his race. The Divine provision is that our Lord left the Heavenly glory and became a man for the purpose of ransoming all mankind. The record is that Jesus' sacrificial life is sufficient to cancel all Adam's sin. On the basis of that sacrifice, Jesus was raised from the dead a "quickening Spirit," a life-giving Personage, with a glory far higher than that which He formerly had.—Philippians 2:9.

The glorified Jesus is Scripturally styled the Second Adam, the Life-Giver and the Everlasting Father—the Father who gives everlasting life. This Second Adam will give life to the world during the thousand years of His Messianic Reign. The regenerating influences will begin with their awakening from the death sleep. Those awakened will be in the condition of mind in which they fell asleep—similar to those living at that time. Before any can be regenerated, they must be brought to a knowledge of the Truth.

The World's Regeneration. The news of God's Love and of the possibilities of return to His favor through Jesus' atoning work being clearly demonstrated to all, each will have opportunity to decide whether or not he desires to return to human perfection and everlasting life. To do so, each must be begotten again by the Life-Giver. Wifely rejectors of the privilege will die the Second Death, while those accepting the Savior's proposals will come under disciplinary experiences which will gradually lift them up to man's original perfection.

The words begot, born, regenerated, suggest our natural birth; but we are not to expect, as Nicodemus queried, to be born again as an infant. The begetting to a new birth will be in the mind-covenant relationship with the Life-Giver.

Nevertheless, it was pointed out, there was a beautiful analogy. While Adam was designed to be the life-giver, father of humanity, Eve was to be his nourisher, care-taker, to bring the race to complete development. So while our Lord is the Life-Giver in the sense that He gave His life as Adam's ransom-price, the Church, especially called and qualified during this Gospel Age, will be the antitypical Eve—the Mother of the world.

The Church's Regeneration Different. The Pastor then carefully explained how our Lord's resurrection was His second birth. The Logos exchanged His spirit nature for the human, but He could not exchange the human nature again for the spiritual; else there would have been no object served in His humiliation. His human life was to be given up sacrificially as Adam's Redemption-price; but God provided for His regeneration—His second birth. After His resurrection, our Lord illustrated the lesson given to Nicodemus. He came and went like the wind. During those forty days He appeared several times for the instruction of His disciples, just as angels have done. Later He ascended on High.

It then was shown that the Church will have a similar change of nature, and that, as with our Lord, this begetting to a new nature begins at consecration and culminates in the resurrection change—the birth to the new nature. Many Scriptures were used in demonstrating this truth. It was also pointed out that this begetting and birth is manifestly different from that provided for the world, which is a regeneration to the human nature which Adam lost, but which Christ redeemed for mankind.

It was also noted that the Church has a different Father—Jesus is not the Life-Giver of this Divine life which the Church is promised (2 Peter 1:4). He did not redeem it or secure it for anybody. He redeemed human nature and secured the right to regenerate the world to human nature. The Church's begetting or regeneration is by the Heavenly Father Himself, as the Scriptures distinctly say. (1 Peter 1:3) He alone can give Divine nature.

PHELAN, CURTIN AND SNYDER ASSURED OF VICTORY

(Continued from Page One)

The pit, galleries and stage were packed and many were turned away at the entrance on account of being unable to gain admission Saturday evening and in the vast throng assembled could be seen the faces of many Richmonders.

The chief speaker of the evening was Ex-Mayor James D. Phelan who in his earnest and impressive manner spoke of the progress that has been made in this country under Democratic leadership of President Wilson and called attention to the futility of sending a Republican to Washington when the balance of power at the National Capital rests with the Democrats.

His argument was along the line that the hope of the Pacific Coast and California in particular was in the election of a representative in the United States who would be in harmony and accord with the policies of the administration.

There was a mighty cheer arose when Ex-Mayor Phelan was introduced which spoke volumes for his popularity in the metropolis of Alameda county, and in the course of his remarks he declared that it was the duty of California to endorse President Woodrow Wilson by electing a Democratic Senator and a Democratic governor.

Secretary Lane is a fluent speaker with the grace and ease of a born orator and from his lips there fell many a truth, that furnished food for reflection. It is predicted by all who were fortunate enough to have heard him that speech was as seed thrown upon good ground which will bring forth fruit an hundred fold. He severely criticized John M. Eshleman for taking advantage of the primary law and placing himself on two tickets and attempting to secure also the Democratic nomination.

Lane's speech was devoted solely to national issues. He spoke of his early life as a boy in Oakland, declaring that he would, in view of this, talk familiarly. He declared Woodrow Wilson the greatest of modern statesmen and that the country today owes him a debt of gratitude for the peace which now prevails.

"The more I stay in politics the more respect I have for the patriotism of the people," he declared. "The American people are not politicians, but Americans. There is a new spirit in the land, and Democracy, starting with great handicaps, has achieved wonderful things in two years of power."

"The first great thing President Wilson did was to announce that Huerta, the dictator in Mexico, must go. It was unprecedented. Nations laughed at him. Now they admire him. London says he will be the arbiter for peace in the European war. I would rather have said of me that I saved the United States from war than anything ever said of any president."

"The Republicans left us a legacy of grave problems; we handled them like men. We challenge any man in the Republican ranks to say that he would repeat any of our reforms."

"No man can say that he will change these things anyhow—not for six years. We have the power and we are going to give our policies a good trial."

"President Wilson it was who put monetary affairs on a sound basis with the reserve banks. You haven't had a panic lately. Wall street no longer can make panics. It is because of the Democratic party. We proved that the poor old Democratic party all laughed at wasn't so incompetent after all."

"We are proud of his record; and if California wants to set its seal of approval on his work, it should send him strong supporters to uphold his hands in his coming and greatest work."

"The Republicans have no nominee for Lieutenant-Governor registered as a Republican," declared Snyder. "For Mr. Eshleman, who repudiated the Republicans, still got his name on their ballot when other Republican candidates split the majority. While avowedly against the old parties, intending if possible to destroy them, he seeks their nominations. He tried to get the Democratic, but couldn't. Governor Johnson refused to do this; he said it would not be right. But his running mate is doing it. When the Progressives robbed the Republicans of their vote for

E. E. GROW WILL BE NEXT SURVEYOR

YES, HE HAS A NEW SUIT

When you go to the polls tomorrow vote for E. E. Grow for county surveyor. Mr. Grow is competent in every respect and will make a first class official for Contra Costa county. Mr. Grow has received a technical education, as he received his degree from the Stanford university and afterwards went to work at Pinole where he did all of the technical engineering for the powder works. Afterwards he came to Richmond, and for the past eight

years has been a resident of this city.

Mr. Grow is thoroughly conversant with road building and the laying out of roads, and is in a position where he can devote his entire time to the office which he seeks.

In the primary election he polled an exceedingly large vote in the western end of the county, and it is predicted that tomorrow his vote will be increased by at least fifty per cent.

Don't forget to place a cross after the name of E. E. Grow tomorrow.

BUT HE DIDN'T WIN HIS BET ON THE BALL GAME THE OTHER DAY!

That isn't how he happened to buy that fine looking suit he's wearing. You see, he lost on the game—but you'd never know it.

He's mighty clever, that fellow, to contrive a smile and a nifty appearance out of disappointment and the loss of the little fund he'd saved up for his new Winter Suit.

He had the good sense to do what any other man can do just as easily. HE BOUGHT HIS SUIT ON CREDIT—AT CHERRY'S.

CHERRY'S ARRANGE MONTHLY OR WEEKLY INSTALLMENT TERMS THAT ARE LOGICAL AND CONVENIENT. And their Clothes for Men are clever as can be, and priced to please men of moderate means. You'll want to see Cherry's up-to-date Overcoats, too.

You know Cherry's addresses, don't you? Well, here they are: 528 13th street, Oakland, between Washington and Clay, is the men's store; while just across at 515 is their exclusive shop for ladies. They have two stores in San Francisco, one at 1009 Market, the other at 2400 Mission. All of these stores will be open Saturday evening until 10. ad.

ABOLISHING OF POLL TAX A BLOW AT PUBLIC SCHOOLS

CITY SUPERINTENDENT W. T. HELMS CALLS ATTENTION TO HIDDEN PERIL THAT LURKS IN PROPOSED AMENDMENT NO. 10 TO EDUCATIONAL SYSTEM.

Richmond, Calif., Nov. 2, 1914.

To the Editor of the Record-Herald:

Dear Sir: I feel it is a duty that I owe to the schools of the state to say a few words regarding proposed Amendment No. 10. Should this amendment, abolishing the poll tax carry it would be a very severe blow to the schools of the state. The revenue going to the State School Fund from the Poll Tax amounts to about \$850,000.00 per year which is just about 1-7 of the money given to the schools by the state. This is 85 per cent of all the poll tax collected, 15 per cent being allowed for collection. In all counties, such as Contra Costa county where the county assessor is paid a salary, this 15 per cent allowed for collection goes to the county and

the corporations collecting poll taxes and the assessor collecting poll taxes do not get any of it.

Professor Carmel C. Plehn, of the University of California, who has a national reputation as a tax expert says:

"Every citizen, whether rich or poor, should pay some tax and should thus be made conscious, in a direct way, of his responsibility for the support of the institutions under which he lives."

The poll tax is the only tax that a great many people pay. There are a great many people, such as the Chinese, Japanese, Hindus, etc., who contribute nothing to the support of our institutions except for the poll tax.

But whether the poll tax is a just or an unjust tax, this fact is evident that the proposed Amendment proposes to abolish this source of revenue for the common schools but provides no substitute and it will be a matter of about three years time before another amendment can be adopted by the people providing a substitute. I feel certain that no citizen desires to deprive the common schools of 1-7 of their state revenue when the individual tax is not a very great burden, and will vote "No" on No. 10.

Respectfully yours,
W. T. HELMS.

NO HEADACHE OR NEURALGIA PAIN

Get a 10 cent package of Dr. James' Headache Powders and don't suffer.

When your head aches you simply must have relief or you will go wild. It's needless to suffer when you can take a remedy like Dr. James' Headache Powders and relieve the pain and neuralgia at once. Send someone to the drug store now for a dime package of Dr. James' Headache Powders. Don't suffer! In a few moments you will feel fine—headache gone—no more neuralgia pain.

EASY TO DARKEN YOUR GRAY HAIR

Try This! Mix Sage Tea and Sulphur and brush it through your hair, taking one strand at a time.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.

President they elected a Democrat. Here's a chance to do that again. We will change this primary law. In the meantime it's up to the Democrats to support me—and the loyal Republicans, too. Keep Eshleman in the Railroad Commission, where he belongs."
